

ARCH565 | WEEK THIRTEEN
KYLER OSTER

I started to get the floor plan finalized on one of the bungalows. Once finalized, I will group the components of the floor plan and copy to each of the bungalows. I attempted to get the model into Twinmotion, but I am running into difficulties with the workflow and download of the product. I will try to get it resolved before class this week. But I think the design is coming along well.

INDIVIDUAL BUNGALOW FLOOR PLAN
